FROSH WELCOME MEETING TUESDAY MORNING

Vol. XXXIV. SAINT MARY'S COLLEGE, CALIFORNIA, AUGUST 28, 1936 Issued Weekly Number 1

## Card. Cerejeira Blesses Statue At Celebration

### Statue Of St. Isabel Donated By Moraga Residents Blessed By Prelate

His Eminence, Manuel Goncalves Cardinal Cerjeira, cardinal-patriarch of Lisbon, presided at the Mass and blessing of the statue to Saint Queen Isabel, patron saint of Portugal, on August 13. The statue was given to the college by Mr. and Mrs. M. A. Lucas.

Over three thousands persons, members of the Society of Saint Queen Isabel, at whose invitation the cardinal came to America, were present at the ceremonies.

**Prior to the blessing of the statue, a solemn high Mass was celebrated with His Eminence presiding from the throne. Father L. Galli, pastor of Saint Joseph's, Oakland, deacon, and Father Anthony Ragogna, of Mary's Help of Christians' Church, Oakland, was subdeacon.**

**Cardinal Gives Sermon**

The Cardinal delivered the sermon, in which he spoke of the glory of Saint Queen Isabel, urged the people to keep the Faith, and lauded the work of Portuguese in church affairs in America.

**After the ceremonies in the chapel, the Cardinal received members of the faculty in the patio. At this time, he expressed his admiration for the Church in America, and stated that he regarded the United States, although there is an official religion as being a real Christian republic.**

**Guest At Lunch**

His Eminence was the guest of Brother Albert, president of the college at luncheon, which was attended by the faculty, civic and consular officials, and by the visiting clergy.

**Brother Albert, speaking in French, welcomed him to the college. In response, Cardinal Cerjeira also speaking in French, thanked the Brothers for their hospitality, and praised both the location and beauty of the college.**

**Father Ribeyron Speaks**

Father Jean M. Ribeyron spoke as a representative of the clergy.

Following the luncheon, Cardinal Cerejeira made a tour of inspection of the campus.

His Eminence expressed his admiration for the music sung by the Student Brothers' Choir during the Mass. It was the first Gregorian chant he had heard since he arrived in America.

## Visiting Prelate

**His Eminence Manuel Goncalves Cardinal Cerejeira, Patriarch of Lisbon, was a distinguished visitor at the College on the occasion of the blessing of the Statue of Saint Queen Isabel, donated by Mr. M. A. Lucas, a resident of Moraga. The Prelate is the youngest member of the Sacred College of Cardinals.**

## Four Men Added To Teaching Staff

Four additions to the faculty were announced this week with the opening of college. Of the four, three will be in the School of Science, and one in the School of Economics and Business Administration.

Brother M. Bernardine, until now associated with Manhatten College, New York, will give instruction in the newly organized engineering department. A civil engineer and a master of science, Brother Bernardine taught in the engineering department of the New York institution.

Also in the School of Science will be Dr. Justin A. Rogers, research professor of chemistry. Dr. Rogers, who attended the college when it was located at the Old Brickpile, completed his education at Creighton University. As well as holding an M. D., Dr. Rogers is a Doctor of the National Board, a distinction rarely held which entitled him to practice medicine in almost any part of the world.

Brother Michael, returning after extensive research work in Australia, will take up duties as instructor in mathematics and botany.

William J. Milliken, for the past year associate to the comptroller of the college is to serve as a lecturer in the School of Economics and Business Administration. Mr. Milliken will continue his duties in the comptroller's office. He received his degree from the University of California.

## Frosh Welcome Meet To Be Held Tuesday

The freshman class will be officially welcomed to the college at a meeting of the first year men next Tuesday morning at 11 o'clock, Joe L. Aliote, ASSMC prexy announced yesterday.

Representatives of the various campus activities will address the freshmen and outline for them the scope of affairs at the college.

Brother Albert, president of the college, will greet the new men for the first time, and extend the official welcome of the college.

Other speakers will include Coach "Slip" Madigan, Graduate Manager, Bill Smith, Lawrence Mana, editor of the "Gael," Elias Welch, Collegian editor and Brother Patrick, director of students.

## Tentative Date Set For Freshman Dance

In the initial meeting of the fall semester, the Sophomore class, Tuesday laid tentative plans for the initiation of the first year men.

President Burrows, as head of the committee in charge of the distribution of the Freshmen "dinks," began the initiation early in the week, and according to sales to date, the number of caps sold should reach well over 200.

Introduction of the new men to college social circles, will take place at the annual Frosh "Welcome" ball. Although nothing is definitely known concerning the dance, it was suggested that it be held at the Ivory Court of the Hotel Oakland, September 18, with entertainment furnished by the popular Puss Donahoo and his orchestra. Freshmen will be admitted upon presentation of their caps at the door.

## President To Address Local University Club

Brother Albert, president of the college, will represent Saint Mary's at a dinner given by the University Club of Alameda County, in Oakland, next Thursday evening, he announced this week.

Representatives of all the bay region colleges and universities are to be present as well as a large delegation of civic officials headed by Mayor McCracken of Oakland.

## Diocesan Congress Honoring Eucharist

According to word received here this week from Archbishop John J. Mitty of San Francisco, Friday, September 4, has been designated as the date for the holding of a Diocesan Eucharistic Congress in the local Archdiocese.

Held under the auspices of the Priest's Eucharistic League, the day has been set aside as one of special devotion to the Eucharistic King. The Archbishop stated that the laity as well as the clergy should attempt in some manner to participate in an active way in the many public devotions that will be held on the day.

Archbishop Mitty indicated that the students of a Catholic college such as Saint Mary's should especially take a part in the ceremonies. "Wherever possible," said the

(Continued on Page 5)

## President Is Host At Faculty Dinner

Members of the faculty will be the guests of Brother Albert, president of the college, at a dinner next Wednesday evening at 6:30, it was announced yesterday.

After the meal, a discussion of plans and policies will be held, and Brother Albert will make an address.

This dinner will take the place of the usual opening faculty meeting.

**OFFICIAL**

**August 26, 1936.**

**Office of the President:**

**Students or students' organizations may not act as agents for the retail of merchandise of any kind on the campus.**

**Exceptions to this rule must have the written sanction of Mr. Louis Guisto, Manager of the Students' Co-op Store.**

**(Signed) Brother Albert, President.**

**Social Committee**

**The approval of the Social Committee must be received before any social event may be held. All requests to the committee must be submitted in writing to the chairman or secretary.**

## Seven Perfect Records Made Last Semester

### Seniors Again Head Honor Roll, With Sophomores Next

Again leading other classes of the college in respect to scholastic standing, the senior class which graduated last May emerged from the final examinations with an average of 1.61, the Recorder's office announced this week in releasing the honor roll for the fourth quarter of last year.

The sophomore class nosed the third year men out of second place with an average of 1.61, to 1.56 for the juniors. The freshman class came in last, making an average of 1.32.

**Student Body Average 1.52**

Average for the entire student body was 1.52.

**Seven students made perfect records. They are: Philip Brady, senior; Brother Damian and Frank Martin, juniors; Brother Antony, Brother Clement and Brother Lucius, sophomores, and William Judd, freshman.**

Students earning a place on the first honor roll with a 2.5 average or better, are:

Seniors: Brady, Victor Strub, Joseph Franey, Philip Quittman, Howard Zellers, Mario Gaione, Edward Hogan, William Smith, Edward Moran and Rodney Stetson.

Juniors: Brother Damian, Frank Martin, William Simon, Frank Salmon, Samuel Miller, Carl Schuck and Gerry Dennerlain.

Sophomores: Brother Antony, Brother Clement, Brother Lucius, Edward McMahon, Ben Tipton, Lynn Hull, Coleman Kezeli, Lawrence Mana, Anton Boehle, James Brady, Richard Moore, Brother Joseph, John Reilley.

Freshmen: Judd, Brother Bartholomew, Brother John, Brother Lawrence, William Glackin, Brother Michael, John Williams, Algeo Brill, Robert Moran, Brother Cyril,

(Continued on Page 5)

## Yearlings Face Sophomore Foes

* * * * *

**Both Confident**

* * * * *

Lower division hostilities will be concluded next Thursday with the annual Frosh-Soph brawl, it was disclosed last night following approval of the date suggested by the executive council by Brother Albert.

As has been the custom in the past, the Block SM Society is to conduct the affair.

**Until next Thursday, sophs will continue the period of light hazing, consisting mainly in chasing the fog away from the young poison oak plants on the hills near the college, of showing due respect to the sophomores, of moving trunks and suitcases, and of similar activities.**

While plans are not yet completed for the brawl, Block SM members said that the program for last year would be followed in most particulars.

**Swimming Meet**

According to the tentative arrangements, the annual inter-class swimming meet will take place in the morning, with the afternoon devoted to the athletic events.

Climax to the afternoon activities will be the traditional tug-of-war between the two classes, which will be the last event on the program.

**Preceeding this event, are to be the relay, the three-legged race, the wheel-barrow, shoe scramble, and possibly one or two other events which are now under consideration.**

Block SM officials and officers of the sophomore class are making arrangements for a smoker in the gymnasium in the evening. An effort is being made to have several boxing bouts on the bill, as well as a short rally.

## Alioto Promises More Activities For Coming Year

### Cultural Activities To Be Stressed With Social And Athletic

Increase of student body activities along cultural, athletic, and social lines, was promised for the present administration, by Joe L. Alioto, student president, in an interview with the Collegian late this week.

"Greatest emphasis," declared Alioto, "will be placed on the cultural activities to the end that the campus will enjoy a fuller life and the prestige of Saint Mary's will be enhanced.

**However, that does not mean that athletic and social activity will in any wise decrease. Plans have already been laid and negotiations started to give Saint Mary's as large a social year as she has enjoyed in the past. Full cooperation is further promised to the intra-mural sports manager, so that as many students as possible will be brought into some phase of intra-mural sports."**

**Dramatics Prime Importance**

In enumerating the cultural activities, Alioto singled out dramatics as the one of prime importance and declared that 100 percent backing would be given to Professor Louis F. Le Fevre in his avowed aim to restore the Saint Mary's dramatic tradition by producing a large scale drama in the spring semester.

Stern measures in regard to campus organizations were promised. "Campus organizations have enjoyed a period of glorious pretense for a long time. They will

(Continued on Page 5)

## Holy Ghost Mass to Be Sung Wednesday

Traditional ceremonies honoring the Holy Ghost will be held next Wednesday morning in the college chapel at 9:30, at which time a solemn High Mass will be celebrated.

Father Bowling, Student Chaplain, will celebrate the Mass and will be assisted by Father Turco as deacon, and Father Duffy, subdeacon. The faculty, wearing their academic robes, will be in attendance at the Mass, and the entire student body will be present.

In commenting on the morning's ceremonies, Father Bowling said that the annual Mass is one of the oldest traditions on the campus, and is always held at a fitting beginning to the scholastic year. "The traditoinal Mass, as it has become during the past number of years, has as its purpose," the Student Chaplain said, 'the consecrating of the year to God, and to ask His blessing on the faculty and students of the college."

All students will meet in their respective religion and ethics classes at 9:10 and then proceed to the chapel for the Mass at the appointed time.

## Periodicals For Library Given By SM Club

Subscriptions to eleven popular publications have been given to the college library by the San Francisco and Contra Costa units of the Saint Mary's Club.

The subscriptions, extending over one and two year periods, are for the following periodicals: Fortune, Congressional Digest, Contemporary Review, Fortnightly, The Month, North American Review, Science Progress, Scribners, The Argonaut, Engineering News-Record and Living Age.

Of this group, two are from England — Contemporary Review and Science Progress. Part of the subscription cost, of slightly over $70 has been assumed by the Contra Costa unit, the remainder by the mother unit in San Francisco.

As the subscriptions have just recently been ordered, it will be some weeks before they reach the college.

## Greets

OAKLAND TRIBUNE

Brother Albert, president of the college, issued the following welcome to the students this week:

When any gathering of major importance convenes, a keynote speech is made with the intention of setting the pattern for subsequent sessions of the conventions. Sometimes the ideals set forth may be lost from sight and completely forgotten in the heat of controversy and the press of business that ensues.

At the beginning of this semester, I wish to make a keynote statement. The most important basis upon which I think our academic year can be constructed is that of urging new and old students to be both gentlemen and scholars.

These two ideals are so carelessly used without attention to their meaning, that it is often thought they are easy to attain. Experience will show that they are difficult of achievement, but that the way becomes easier when one is made the complement of the other. Cardinal Newman wisely defined a gentleman as one who never inflicts pain. That takes in a great expanse of material. You can inflict mental pain with more effect than you can physical pain. If you try to refrain from causing mental and physical discomfort and try to learn as much as you can, you will find the blending of the two requisites more helpful in your life than any other training you might attempt.

The one respect in which I want this message to differ from a keynote speech is that I do not want our students to lose sight of these ideals or forget them in the work and pleasure that will occur throughout the year.

BROTHER ALBERT.

## Large Increase In Registration Is Made Known

### Many Students From Distant Points Sign Up On Campus

With one of the largest Freshman classes in the history of the institution, the registration at the college this fall is a significant indication of a gradual upward trend after a decided four year decline, during the depression period.

According to Brother Julian, Registrar, students from every part of the country and from several foreign lands arrived on the campus this week to register for the coming scholastic year. A surprising number of out of state students matriculated this semester.

Included among the states represented by the first year men are: Washington, Oregon, Nevada, Idaho, New Jersey, New York, Pennyslvania, Montana, Utah, Kansas, Illinois, Colorado, Wyoming, North Dakota, New Mexico and Arizona.

Along with the increased enrollment is the notable increase in the number of cars on the campus. This factor substantiates the indication of the gradual return of good times.

## Occupations Bureau Established Here

Establishment of a Bureau of Occupations at Saint Mary's College has been announced by Dr. Allyn C. Loosely, dean of the school of economics and business administration.

Intended primarily, at the outset, to place the graduating classes of the school of economics and business administration in positions other than teaching, the Bureau hopes eventually to be able to assist in the placement of all graduates and other students of the college, Dr. Loosely said.

The Bureau will not handle part-time placements, according to the originator of the plan, but will concentrate on locating good full-time positions for next year's graduates. Business men and other employers of the state will be informed of the service and afforded an opportunity to contact men trained in the fields of economics and business administration, according to Dr. Loosely.

First meeting of the year for the Collegian staff and for those aspirants to future press positions, will be held next Tuesday noon in the regular meeting room in Galileo Hall.

A special request was made by the editor to new students to turn up for the meeting as many staff vacancies will need to be filled soon.

## *Brother Finds Character From Willa Cather Novel*

The strange narrative of a leading character in a famed historical novel, who still lives at the scene of the story yet until recently had never been told the tale or even heard of the author, was related by Brother Claudius, upon his return from three months of research work among New Mexico's Pueblo Indians.

Brother Claudius

"Jacinto," heroic Indian guide in Willa Cather's widely read story of the American Southwest, "Death Comes to the Archbishop," lives in obscurity at Santa Fe, New Mexico, unaware of his celebrity, according to Brother Claudius, who said Jacinto's real name is Miguel Jacinto Lamy and that he is now 85 years old.

**Brother Claudius said he asked him if he had ever heard of the book and Jacinto replied that other Indians had told him about it but he had never seen the book or been told the story and had not heard of Miss Cather.**

"Death Comes to the Archbishop" is the heroic tale of Archbishop Lamy, pioneer missionary of the Southwest, and of his labors and adventures among the Indians, Spaniards and other early settlers.

One of the central characters is "Jacinto" an Indian boy who serves the Archbishop loyally, both as guide and friend.

The original Jacinto is a true-

"California Team To Beat," Slip

## Ferreira Marries, Automatically Becomes Ineligible To Participate Any Longer For Galloping Gaels

**42 Sign-Up Wednesday Night For Coming Grid Campaign; Fifteen Are Promising Sophomore Prospects**

By becoming united in the holy bonds of matrimony during the summer in Reno, Nevada, Frank Ferreira, promising Galloping Gael halfback from Half Moon Bay, automatically became ineligible to further participate in athletics at Saint Mary's.

Thus, it is that his name is not on "Slip" Madigan's '36 varsity football roster released Wednesday night following the sign-up of 42 gridders.

**Ferreira's marriage ended what loomed as being a promising gridiron career at Saint Mary's**

But Madigan does not seem worried over the loss of the Half Moon Bay footballer, for among the 42 gridsters signed-up, 15 are bright prospects from the sophomore class.

**Maxham Has Competition**

These 15 include, Jerry Dowd, 200-pound, 6 feet, one inch fullback from San Francisco, and Harry Aronson, 195-pound fullback from Rodeo. The duo is expected to give the veteran, Floyd Maxham, plenty of comeptition for the post.

**Sophomre halfbacks, given a good chance to break into the first-string line-up are, Leo Englert, Mike O'Rourke, Frank Freitas and Herb Smith.**

Mike Perrie, Fern Skoubye and Bill Casey, are strong second-year biders for the quarterback role now being held down by Lou Ferry and Wally Morse.

Jim Laman, Joe Hurley and George Zulim, looked good last season at the flank berths on the Frosh eleven.

Fine-looking sophomore tackle prospects include Bill Bowman and George Cantwell.

Ralph Jack, guard, has been placed on Madigan's second string with Leo Scatena.

**Work At Center**

The weak spot seems to be center, Wally Garard being the only returning letterman.

**Madigan already has released his tentative first three line-ups, which are the same as those announced at the close of the spring practice season.**

Ends on the first squad are Johnny Giannoni and Jim Austin. Jerry Denerlein and Bill Wilkin, tackles; Marty Kordick and Jerry Conlee, guards, and Garard, pivot man, round out the forward wall.

In the backfield are Ferry, quarterback; Lou Rimassa, junior star uncovered during the spring workouts, and Les Groux, halfbacks, and Maxham, fullback.

Bob Timm and Vic Strub are the ends on the second squad. Tackles named are Nick Haloski and Carl Orth. John Sauwders, center, if flanked on the left by Leo Scatena and on the right by Jack.

Morse, quarter; Hugh Sill and Tony Falkenstein, halves, and Dowd, full, are placed in the backfield.

**Three-String Line-up**

Placed at the third-string terminals are Laman and Hurley; at tackles, George Cantwell and Bill Bowman; at guards, Ernie Jorge and Don Miller; at center, Coleman Kezeli.

**Lost from the 1935 squad by graduation are Mal Fiese, quarter; Herb Schweiber, half; Herm Meister, tackle; Ed Erdelatz, end; Ev Pendleton, end; Wag Jorgensen, center, and Clarence Kellogg, fullback. All these gridders were lettermen.**

## A Grid Challenge Issued

* * * * * * * * * *

### Bob Smith's Eleven Asks For Tilt!

* * * * * * * * * *

### Will Richmond Oilers Accept?

Bob Smith, a member of the new freshman class, has issued an informal challenge in behalf of his "Eaton and Smith" football squad, to Mr. Francis Smith of Richmond.

**Mr. Francis Smith is the gentleman who helps out ailing gridders during the summer at the Standard Oil plant in Richmond, and both he and the San Francisco firm of Eaton and Smith hire a good many of the local moleskinners.**

The up-shot of the whole thing is that Bob is just aching for a chance to pit his San Francisco warriors against the Richmond gang on Agnon field one of these fine days.

**Well Balanced Outfit**

The San Franciscans boast a well balanced outfit and on paper, it appears as if the Richmond Smiths have their work cut out for them.

**Bob says that barrel-rolling and stacking cases in the Richmond plant is not at all comparable for training gridders with that of heavy bridge construction. Smith's bridge builders would line up in somewhat the following manner:**

Ends: George Cantwell and Art Ringholm; tackles, Fidel Neilson and Nick Haloski; guards, Lee Scatena and Jack Tompkins; center, John McDonagh; quarterback, Bob Smith; halfbacks, Tony Falkentein and Bill Casey; fullback, Jerry Dowd.

## SWING IT, FRESHIES, FOR OLD PROFESSOR SLIP

**A BEVY of San Francisco prep stars launch their college careers at Saint Mary's College under the eye of Coach "Slip" Madigan. All except one of the boys was coached by a Saint Mary's graduate at one time or another. They signed up yesterday.**

SAN FRANCISCO CHRONICLE

**STURDY young fellas, left right, are Norm McPhail, Commerce halfback; Fidel Nielson, Poly tackle; Bob Smith, Sacred Heart halfback; John McDonough, Saint Ignatius, center; Glen Sinnott, Saint Mary's of Berkeley, halfback; Art Ringholm, Balboa, end, and Jack Tompkins, Lowell guard.**

## 40 Freshmen Sign-up For Class Gridiron Eleven; Loom As Best In History Of Saint Mary's College

**San Francisco, Los Angeles, Montana And Washington Are Leading Donors of Yearling Material To Gaels**

By HENRY WETZEL

Forty towering behemoths of humanity!

No, not the make-up of this year's varsity squad, but the personnel of the Freshman football eleven.

Larger than Freshman squads of recent years, this season's aggregation looms as one of the best ever enrolled at Saint Mary's. Having an average weight of 185 pounds, the squad looks to be very capable when it comes to moving heavy tackles from the path of the ball carriers.

**San Francisco, Los Angeles, Montana and Washington are the leading donors of the material that will greet Jimmy Underhill when the practice call is sounded next month.**

Among the more publicized players on the squad are prominent prep stars of last season from San Francisco.

Heading the list from across the bay are six boys that gained all-city posts last fall. They are, Fidel Nielson, a 220-pound tackle from Poly; John McDonaugh, a 185-pound center from Saint Ignatius; Jack Thompkins, a 190-pound guard from Lowell; Norm McPhail, 180-pound halfback from Commerce and Bob Smith, 160-pound halfback from Sacred Heart.

**Glenn Sinnott,, a product of Saint Mary's High in Berkeley, looms as first-class material for one of the halfback berths.**

Bill Thomas, an all-star prepster, who tips the scales at 175 pounds and is 5 feet. 11 inches in height, comes from Lodi, California, and it looks as if he will offer a hard fight for one of the halfback posts.

Anaconda, Montana, presented the Gaelets with a good looking pair of prospects in the persons of Walt Fitzmaurice and Coley Vaughn. Vaughn, an end, tips the beam at 183 pounds while Fitzmaurice, a halfback, weighs in at 170.

Los Angeles presented the Gael babes with quality rather than quanity, according to Jimmy Underhill, Frosh mentor, when accosted on the campus yesterday. Then he proceeded to name four candidates whom he believes will offer serious opposition to all those who are headed for the same positions.

**The southern gridmen are: Al Linqua, a 180-pound fullback; Walt O'Connor, a 175-pound end; Downey. Thomas,. 175-pound. guard, and Vince McArdle, 178-pound quarterback.**

Turlock, California, sends Lavine Bettencourt, a 187-pound end. The state which we know so well through close association with Tony Falkenstein, Colorado, will be represented by Bud Latuda, 185-pound center, and Vic Spehar, a 215-pound fullback.

From Wyoming comes Pete Sedar, 185-pound guard, while Bob Rutherford of Redding, California, tips the scales at 176 and is also a fine looking guard prospect.

**Jack Compton, 185-pound tackle, hails from Washington, while Ray Foster, another fine-looking prospect for a halfback berth, comes from Sacramento. Melo Milicevich, Richmond's all-county 182-pound center, also will be trying to make the Gaelet squad.**

Other candidates who signed up in the athletic office were: Mark Petersen, 230-pound pivot man from Salinas; Bill Moroney of Burlingame, Emmett O'Neil of San Jose, Jack Sims and Romolo Brusoti of San Rafael, and Al Sarcdia of Berkeley.

## "California Team To Beat," Says Moraga Grid Headman to Press

**"California is the team to beat this year."**

Author for this statement is none other than "Slip" Madigan, who really ought to know.

The Gael mentor made that statement to the press Wednesday while the varsity gridders were being photographed for the publicity department.

**It thus looks as if Madigan is not in accord with fellow coaches and sports experts, who have predicted that Washington and U. S. C. loom as the best on the coast this season, although the "Slipper" didn't say anything other than the one statement.**

**Madigan Right**

Madigan may be right. On the same day "Stub" Allison of the Bears allegedly declared that "California fears no one!"

But he did not say that the Bears would defeat every opponent that they met.

California, with a veteran junior team, should be favored over the Gaels, when the two clash on the familiar turf of Memorial stadium on Saturday afternoon, Cctober 3.

**Colorful Tilt**

**The week previous to the colorful tilt played annually by the two elevens, the Bears play a double-header in their opener while the Gaels tackle the always-barking Gonzaga Bulldogs, not a set-up any longer for any team.**

The Saint Mary's - California game is one of the biggest tilts on the schedule of either team, only the Saint Mary's-Santa Clara and the California-Stanford contests paralleling it in regards to gate receipts.

---

The football future of the University of Washington looks very good this fall. Dan Lazeravich, end and captain last year, is the only missing member from the squad. The highly-touted backfield of Elmer Logg, "Sugra" Cain, By Haines, and Nogorowski, will all be back, which should add much to the strength of the Huskies.

## Gael Mentors Set For Coming Grid Season

* * * * * * * * * *

Anticipating approach of the football season, "Slip" Madigan and his aides are preparing to run both the varsity and the freshman squad through a long, strenuous grind before that day, in late September, when the Galloping Gaels will trot forth on the Kezar turf for their first battle.

As in former years, we have as "Slip's" supporting factor, the incomparable "Red" Strader. From all reports the genial red-head is "rarin' to go," after a summer filled with baseball playing and numerous other activities.

Coaching the line, we find none other than Eddie Erdelatz, erstwhile Gael wingman and crooner extraordinary. After four years of watching Eddie's unequaled pass-snatching, and excellent line-play, coupled with his gallant and unconquerable spirit in the face of difficulties, we know that the varsity line will have a coach who "knows the ropes" as well as anybody.

The only absent face on the coaching staff this season will be that of "Butch'" Simas, who took a matrimonial walk, exchanging his post on the Gael campus for a position with a Bakersfield oil company. Jimmy Underhill, freshman football coach also has ex-extremely strenuous summer "vacation."

## 500 Boys Attend C. Y. O. Summer Camp Held Here June - August

Five hundred care-free, happy boys'

That's the number of young men who attended the C. Y. O. camp held at the college this summer between the dates of June 29 to August 3.

Under the able tutelage of Father Leo Powleson, head of the northern California C. Y. O.; Father Eugene Shay, supervisor of the dormitories and resident pastor, and Jimmy Underhill, freshman football coach who served in the capacity of athletic director and camp leader, the young boys enjoyed many fruitful hours of happiness.

**Great Stride Made**

Great strides were made along the physical education line as the boys were taught by such capable leaders as George Malley, assistant football mentor at the University of San Francisco and C. Y. O. boxing coach; Walter Johnson, trainer for the C. Y. O. boxing teams; George Ciramelli, 1934 and 1935 C. Y. O. state champion in the 118-pound class; Ray Lunney, 1936 state C. Y. O. champion in the 118-pound class and Johnny Jurs, runner-up for the 112-pound division.

**Each day the youngsters enjoyed a complete change in program and thereby interest was kept at a high pitch.**

**Swimming Popular**

The boys were divided into groups and allowed to choose their own team names. Such sports as swimming, received an overamount of competition as the hot weather demanded that the human body immerse itself in the cool depths.

## Wah-hoo-hoo! Navajo Injun Arrives

* * * * * * *

**"Lonely" Vigil Grid, Track Prospect**

* * * * * * *

## Looms As Threat To Quarterbacks

**Wah-hoo-hoo!**

**No, it isn't an Indian war dance, and the "Injuns" aren't coming. That is—not all save one, and he's already arrived on the campus.**

**Eugene "Lonely" Vigil, a full-blooded Navajo "Injun" from Santa Fe, New Mexico, arrived on the campus Wednesday night and registered yesterday morning as a member of the large '36 FFreshman class.**

**Freshman class.**

**A product of the Christian Brothers, having attended Saint Michael's high school in Santa Fe.**

**"Lonely" starred on the gridiron and on the cinders while performing under the colors and banner of Saint Michael's. Although he weighs only 150 pounds, and stands 5 feet, 6 inches in height, "Lonely" looms as a threat to yearling aspirants seeking the quarterback post on their Frosh eleven.**

**A 10-flat trackster in the century in high school, the Indian frosh may aid greatly the revival of track at Saint Mary's.**

LOUIS GUISTO, Mgr.

# GAEL GOSSIP

By BILL BETTENCOURT
(Sports Editor The Collegian)

### HENNING LEAVES SWIVEL CHAIR

Jack Henning, whose name topped this column after his appointment as sports editor last March, relinquished the post this week to take over Ed McSweeny's duties as secretary to "Slip" Madigan.

Having been selected to sit in Henning's vacant swivel chair, we hope that we will be able to present to you an interesting sports section weekly.

Our staff for the most part is, as athletic coaches usually say of their sophomores, "green, but good." We'll not write to fill space, but for your information. We aim to bring to you a newsy sports section every Friday.

### McSWEENEY NOW INSURANCE MAN

Tomorrow McSweeney leaves the athletic office of the Galloping Gaels to assume new duties in a San Francisco insurance office. The genial Ed will be missed not only by Madigan, Jimmy Underhill, "Butch" Simas and "Red" Strader, but also by the other faculty members and Gael students.

McSweeney has the best wishes of his friends for continued success in his new endeavor.

Too, congratulations and best wishes to Henning. His job is a good one. Madigan picked a good man for it.

### WE HAVE WHAT THEY HAVEN'T GOT

**Knowing only what we read in the papers, we are unable to add much comment to the Jean Harlow-Jim Austin Hollywood episode since the stories of the affair—or affairs—have differed. But, according to every story, our Jim allegedly had at least ONE dance with the glamorous Harlow.**

**So, we think that we Gaels have something that the Bulldogs, Bears, Broncos, Dons, Vandals, Owls, Lions and Rams—our opponents—haven't. And that is a gridder who danced with Jean.**

### KNOCK-KNOCK! COME IN!

This we find on our desk:
"Knock, knock!"
"Who's there?"
"Slip."
"Slip who?"
"Slip-py Time Gal."
(Don't blame us. We're only passing it on to you.)

### FIRST COME, FIRST SERVED.

Bill Smith, new Gael Graduate Manager, reports that applications already are being received by his office for tickets to the annual Gael-Bear brawl in Berkeley.

At California, Smith says, the pre-season demand for ducats to the tilt is above normal. Hence, it looks as if good times really have returned and that the Memorial bowl will be almost jammed when 2:30 p. m., October 3, arrives.

Smith expects between 30,000 to 40,000 fans at the Gael opener with the Gonzaga Bulldogs. He points out that the Bulldogs have one of the best records of any team against the Gaels.

It is our opinion that the tilt will be one of the hardest fought gridiron openers on the Coast.

### COGITATIONS ACROSS THE CAMPUS

**..Cogitations while treking across the campus—**

**If they beat the Bears, the Gaels should have one of the best grid seasons in the history of the school . . . Too, they should be one of the nation's outstanding drawing cards . . Once again our Frosh squad looks to be one of the best on the Coast . . . San Franciscans, as usual, lead the list in quantity . . . The boys seem to come from everywhere—Montana, Washington, Wyoming, Colorado, Illinois, New York . . . What draws these mighty lads to this haven? . . . "Join The Collegian staff and ride in a V-8."**

## Kaspar Leaves Navy For New Air Position

Lt. Stanley M. (Toots) Kaspar, former Saint Mary's College fullback and flight instructor for the U. S. Navy rtaining school at Oakland airport since its establishment a year ago, has left the Navy for a position as transport pilot with a commercial airline (T.W.A.), according to a letter Coach Slip Madigan received from his former pupil this week. Kaspar has been assigned to flight duty between New York City and Chicago, Slip said.

## Miller Lauds Prep Post in Wisconsin

Marv Miller, reserve quarterback on the 1931 Saint Mary's College football team, this week became the twelfth member of that year's squad to land a teaching and coaching job.

Miller, a native of Kaukana, Wisconsin, has signed a two-year contract to coach football and teach English at Saint Mary's high school in Menasha, Wisconsin, according to a letter received by Coach Slip Madigan.

## Madigan Has Unique Record With Moragans

### Gaels Win 86, Lose 21, Tie 7 Out Of 114 Games Played

Under "Slip" Madigan, the Galloping Gaels have one of the best football records of any college in the world.

Madigan came to St. Mary's in 1924. Under his leadership, the Gaels have played 114 games, winning 86, losing 21, and tying seven.

In these 114 contests, the Moragans have aggregated a total of 2051 points as against 547 for the opposition. This gives the Madigan teams an average score of 17.99 per game; the opponents, 4.79.

This coming season the Gaels will tackle the most difficult schedule in the history of the school. The Moragans are slated to meet ten of the nation's toughest teams from coast to coast on successive weekends with one exception. That is before the game with Alonzo Stagg's College of the Pacific Tigers.

**Tough Schedule**

Professor Dickinson, University of Chicago football statistician, ranks Saint Mary's schedule equal to any in America.

SLIP MADIGAN-HEAD COACH

**During all this time, Saint Mary's never has been beaten by more than 14 points. In fact, only one team ever has turned the trick by more than 13. Fordham won, 14 to 0, in 1932. The only time Saint Mary's lost more than two games in one season, was in 1926 when four were dropped. Average lost per season for entire period, is 1.7 games. No major football team in the world can equal this record. And Saint Mary's never has barred any team because of its bigness or toughness.**

Although it abides by all conference eligibility rules, regulations, and other athletic and scholastic requirements, Saint Mary's is not and never has been a member of the Pacific Coast conference.

**Win 18, Lose 13**

Since 1924, when the Gaels adopted this policy, Saint Mary's has won 18, lost 13, and tied four out of 35 games with conference members.

Notre Dame's record against Big Ten teams is the only similar instance of such superiority.

**From the standpoint of service at a single school, "Slip" is now dean of all coaches in the country. Every other institution has changed its head football coach since that time. This is Madigan's sixteenth consecutive year at Saint Mary's.**

Despite his long coaching career at Saint Mary's, Madigan is one of the nation's comparatively young big-time coaches. He graduated from Notre Dame in 1920, coached at Portland University, Oregon, in the fall of that year, and came to St. Mary's in 1921.

He is a native of Ottawa, Illinois.

**Notre Dame Best**

Basically, "Slip" still employs the Notre Dame system. He thinks it the best, most picturesque and most misunderstood system ever devised. He says statistics show conclusively that Notre Dame system teams generally have been more successful than those employing any other system of play. There is little doubt as to the eye-appeal of its synchronized rhythm and military precision.

**But, because so many teams use the system, the effectiveness of its deceptive and surprise elements are reduced. Madigan did something about this in 1930, the year after the full-second stop rule was adopted, when Saint Mary's employed the first double-shift against the Fordham Rams in New York.**

"Slip" kept extending this principle until today, Saint Mary's multifarious shifts and hybrid hikes are without parallel in their intricacy and complexity. Last year, Saint Mary's players shifted, double-shifted and triple-shifted, and also went from no-count, no-hike and even no-huddle plays.

**Knows Human Nature**

A keen student of human nature, his understanding and encouragement bring out the maximum ability in his men. Once an ardent disciple of high emotion and the old pep-talk method, Madigan completely has abandoned it of recent years in favor of calm and intelligent reasoning with individual players between halves, harely addresses the team as a group in more than a moderate tone.

Intelligence and aggressiveness are the prime requisite of Madigan's regulars. He says it is impossible for an athlete to be a good football player if lacking in either. There are 52 former Saint Mary's football players teaching and coaching throughout the nation, a figure surpassed only by Notre Dame. Most of them are in California's public schools. The state board of education requires that each must have graduated with higher than a "C" average and have completed satisfactorily one year of graduate work at a state university.

## Soldier Field Not To Be Idle This Fall

Long idle as a major football arena, with the exception of the annual all-star game, Soldier Field, Chicago's vast stadium, will be the scene this fall of one of Saint Mary's more important games.

Coach Slip Madigan's sixteenth edition of the Galloping Gaels will invade Soldier Field on Friday night, October 30, for its first appointment in history with Marquette University, nicknamed "The Golden Avalanche.'

The Marquette Saint Mary's conflict is sponsored so that a large crowd is assured. The game will be a benefit for the city of Chicago employees' welfare fund. A Friday night affair, it will be held on the eve of the Minnesota-Northwestern tilt at Evanston and the Ohio State- Notre Dame clash at South Bend on the following afternoon.

## *Gigantic Rebuilding Task Faces "Slip" Next Month*

With only four regulars from last season's team returning, Coach "Slip" Madigan has a gigantic rebuilding job on his hands. First-string inventory shows two guards, a tackle and a quarterback are back. Ten lettermen in all, are missing.

**Loss of Wag Jorgensen and Les Jirsa, centers, leaves only Wally Garard with any experience at his post. Graduation of halfbacks Herb Schreiber and Kelly Kellogg and fullback Mal Fiese, tore an awful rent in the backfield.**

Experienced and able halfbacks are still two-deep but lettermen Floyd Maxham is the only fullback with a service record. Lou Ferry is back at quarter. Bill Wilkin stays on at right-tackle and the seasoned Jerry Dennerlein will carry on for All-Coast Herm Meister at left-tackle.

**No Experienced Tackles**

There are no other tackles with any experience. Last year's guards, Marty Kordick and Jerry Conlee, both two-year lettermen, are back. Gone from the ends are Ev Pendleton and Eddie Erdelatz, all-Coasters, but four more letter winners—Jim Austin, Vic Strub, John Giannoni and Bob Timm—bring experience to the flanks.

Madigan says he met some of the new players last spring and they "looked very alluring", but he won't know definitely until next November.

## Six-Game Schedule Billed For Yearlings

A six-game schedule for Saint Mary's 1936 freshman football team, topped by traditional games with first-year teams at Santa Clara and U. S. F., was announced this week by Graduate Manager William J. Smith.

Santa Clara and U. S. F. games will be played at Kezar stadium, San Francisco, and the others, with the exception of Pacific frosh, will be played on home fields of the Gaelet's rivals.

Salinas junior college is the only new foe on the baby Gael's list.

Sept. 26—San Mateo J. C. at San Mateo.
Oct. 4—U. S. F. Frosh at Kezar.
Oct. 27—Salinas J. C. at Salinas.
Oct. 24—Humboldt State at Arcata.
Oct. 31—Pacific Frosh at Saint Mary's.
Nov. 8—Santa Clara Frosh at Kezar.

### APPLICATION FOR TICKETS

First application for football tickets, harbinger of autumn as the first robin is of spring, popped into the undefiled desk of Saint Mary's new graduate manager, William J. Smith, with this week's mail.

## Alumni News To Be Started Next Week

Beginning next week, Alumni news for the school year 1935-36, will be written by James Davis of the class of 1931, and former member of the Collegian staff. A new mailing list of subscribers has been compiled, containing only the names of those alumni who have paid their subscriptions. Davis is a resident of San Francisco.

Sign up for The Collegian sports staff now!

## 150 Already Ask For Tickets To Gael-Bear Tilt

### Applications For Ducats Will Be Released Sept 4, Smith Says

With the largest advance ticket sales in years, reported by Bill Smith, new Graduate Manager, all indications point to the fact that the Saint Mary's-California football game will reach one of its peak years.

**Applications for the California game, according to Smith, will not be mailed from his office until September 4th, but more than 150 tickets already have been spoken for.**

**"Football Natural"**

"If our present pace keeps up, it wouldn't surprise me," said Smith, "to see the California Memorial stadium packed to the rafters for our game with the Bears this year. It looks like a football natural, and the fans are responding early."

Notice of ticket sales for students will be posted shortly by Smith, at which time students holding student-body cards may use their preferred seat ticket options.

## Bill Smith Names Two Assistants

### Kirkham, Lobianco Picked To Aid Graduate Manager

In the role of student assistant's in the graduate manager's office, two men, Bill Kirkham of the sophomore class and Peter Lobianco of the first-year group, have been appointed to work under Bill Smith, it was announced yesterday.

**Lobianco and Kirkham assumed their new duties yesterday.**

One more assistant will be appointed shortly to work with the new graduate manager and the two afore-mentioned student assistants.

## 5 Gaels Place On All-American Teams

Five Saint Mary's gridders have been placed on All-American elevens. Norman "Red" Strader, now "Slip" Madigan's No. 1 assistant, was the first Gael gridder to be honored by a post on the All-American team of 1924, picked by Walter Camp.

In 1927, Larry Bettencourt of Centerville, a center, was chosen by Knute Rockne, Howard Jones, and "Pop" Warner.

Malcolm Frankian, an end from Oakland, was selected by the United Press in 1928.

Rockne, Jones and Warner, picked George Ackerman, a tackle from Antioch, in 1929, and in 1933, the New York Sun selected Carl Jorgensen, a San Mateo tackle.

## Hong Kong Brothers' College 61 Years Old

HONG KONG, China. — Saint Joseph's College, established here by the Brothers of the Christian Schools in 1875, has just marked its sixty-first anniversary.

The Most Reverend Henry Valtorta, Vicar Apostolic of Hong Kong, ushered in the celebration with a special Mass in the college chapel. In his sermon, the Bishop emphasized the high standing of the college and the notable role it has played in Catholic history here.

The present enrollment is about 700, of whom 40 per cent are Catholics. Twelve Brothers, assisted by 14 lay professors, constitute the staff. The college provides both primary and secondary education its graduates being qualified for matriculation at Hong Kong University.

The growth of Saint Joseph's College was such that a few years back the Christian Brothers decided to establish La Salle College in Kowlonn on the mainland in 1931. It is staffed by 13 Brothers and 19 lay professors. It also has approximately 700 pupils, the majority of them being Catholic. The courses correspond largely to those of Saint Joseph's.

## Brothers To Attend Eastern Conclave

Before returning to Europe, where he will take his place in the new Mother House in Rome, Brother Philip, Assistant Superior General of the Brothers of the Christian Schools, will preside at a meeting of all of the Provincials, and Directors of Novices in the United States.

The meeting, which will be held September 15, at De La Salle College in Washington, D. C., will be attended by Brother Jasper, former president of the college, and Brother Chrysoston, Director of Novices at Mount La Salle in Napa. Brother Jasper is Provincial of the Brothers on the Coast. The two Brothers will be gone about six weeks.

## *Bay Bridge Work Focused on Paving West Bay Section*

With construction activities on the San Francisco-Oakland Bay bridge concentrated largely on the paving of the west bay crossing, progress at this section was making rapid headway, according to the weekly report of Chief Engineer C. H. Purcell, filed today with State Director of Public Works Earl Lee Kelly.

Paving on the south lane of the upper deck from Tower W-6 to the center anchorage, was completed last week by Columbia Steel company. This makes the entire pavement on the west bay crossing within 50 percent of completion.

Other work carried on simultaneously on the suspension spans is riveting, cable wrapping, and painting. Riveting of the west bay crossing is 88 percent completed, while work on cable wrapping is under way between Towers W-6 and W-7, the last sections to be wrapped.

With the painting of the third coat under way on the suspension spans, the painting contract on this section is now 65 percent completed by Bridge Builders, Inc.

Erection of steel for the upper deck of the San Francisco anchorage was started late last week, according to Mr. Purcell's report. This steel comprises mostly posts, floor beams, and stringers.

Meanwhile, work has continued on the viaduct at the top of Rincon Hill, on the "off" ramp viaduct between Folsom and Harrison streets, and on paving of the approach roadways.

With the completion of sandblasting in the Yerba Buena island tunnel, preparatory to lining the tunnel with tile, the placing of mortar coats, which are to bind the tile to the concrete roof, has been started by Superior Tile company.

In Emeryville, work on the San Pablo avenue underpass has been entirely completed with the exception of the paving of the side streets which is well under way by J. F. Knapp, contractor.

## Dorm Directors Are Appointed

Directors of students in the three resident halls as announced this week finds Brother Patrick, director of students in charge of de la Salle Hall, for junior and senior students. Brother Patrick relinquished this post last semester in order to become field secretary.

Brother Paul, formerly in de la Salle Hall, assumes charge of Augustine Hall for freshmen students, while Brother Bede Edward remains in the sophomore dorm, Aquinas Hall.

## Southland Mecca For Traveling Brothers

Deserting the campus for the summer, many members of the faculty traveled to points far and near. Some sought rest and relaxation, while others garnered information for books, lectures and other similar projects.

**Brother Cornelius spent most of his time gathering material for the biography of William Keith, well known California artist, which he has been writing. In his efforts to collect material, Brother Cornelius completely covered the state.**

**Southern California Popular**

The southern section of the state attracted Brother Henry, Brother Matthew, and Brother Bede Edward, who passed most of their time in and about San Diego, while Brother Clement spent part of the summer in Los Angeles.

Brother Claudius was engaged in making a study of archeology among the ancient ruins of New Mexico.

**Modes of Travel Differ**

Offering a very wide contrast in methods of travel, Brother Albert traveled by train as far as Salt Lake City and then flew east from there, and returned by way of the air route, while Brother Leo made a very leisurely tour of Central and South America.

## HIGHLIGHTS ... of ... SCIENCE

By BILL GLACKIN

**DIRTLESS FARMING**

Science, which has in the last few years proved to be the farmer's best friend, has reached what might seem to be the ultimate in agriculture. Professor W. F. Gericke of California, has succeeded in raising fruits and vegetables in a liquid medium of chemicals outdoors, and has made such great strides in this line of endeavor, that he felt justified last week in making the following definite statement: "Crops can be grown out-of-doors in a liquid culture medium, in proper season, anywhere the given crop is grown by agriculture."

As proof for this revolutionary axiom, he offers the following facts: In metal tanks 2½ by 10 feet, he has produced a potato crop which yielded 75 tons to the acre, tobacco plants 22 feet high, gladioli which would make a Californian gasp, and 306 pounds of tomatoes to a tank.

Professor Gericke, however, insists that his work is still in the experimental stage. Some experiment.

**JUICE**

You've drunk orange juice for breakfast and tomato juice for that fuzzy feeling, but here's a juice we'll bet our shirt you've never heard of—grass juice. It is, so science says, good for what ails you.

Drs. Elvehjem and Hart, of the University of Wisconsin, have discovered that when fresh grass juice is added to milk, the growth-promoting properties of the latter are greatly increased. This discovery is expected to be of great aid in strengthening winter milk, which lacks the growth-producing power of summer milk.

**CANCER IN THE CYCLOTRON**

Remember Dr. Lawrence's atom-smashing cyclotron machine over at the University of California? If you will hark back to last year's article in this column on the subject, you will recall that the machine was only large enough to break up comparatively small lumps of material.

In the past year, however, working with his brother from the Yale School of Medicine, Dr. Lawrence has discovered a new, important, and humanitarian use for his machine. It seems that the cyclotron is even more effective than an x-ray machine in killing animal tumors. From these experiments, the two brothers have concluded that a large model of the machine might be effective as a weapon against human cancer.

Accordingly, they are constructing a new machine which will weigh over two hundred tons, whose electromagnet will measure fifteen by twenty feet, and which will be capable of producing fifteen million electron volt energy particles. When completed, it will be the largest cyclotron machine in operation.

**RUBBER WRAPPERS**

If the invention of J. P. Kane of New York comes into widespread use, you will soon be buying soap in rubber wrappers two to five one-thousandths of an inch thick. This will be bad news to the paper people, but a boon to the consumer, for whom unwrapping a cake of soap will no more be troubled than unwrapping a package of gum.

Up to now, rubber coatings for soap have been impractical because the cakes stuck together, and the rubber discolored the soap. Kane's process, because of a chemical which accelerates the vulcanization of the rubber, eliminates these faults.

Not only will the rubber coating fit so snugly that it will clearly show the trade mark and designs stamped on the soap, but it will also allow the scent of the soap to pass through it.

**GARLIC**

In case you've been wondering what makes you that way after you eat garlic, it is not, as many believe, caused by food particles in the mouth. The scent originates in the blood, and passes out the mouth by way of the lungs.

Mouth washes, gargles and the like, therefore, do no good. If you're set on eating garlic, you might as well resign yourself to being a social outcast for about eight hours afterwards.

## *STUDIES CILIATES*

OAKLAND TRIBUNE

**Investigation into the private life of ciliate protozos is Dr. A. S. Campbell's occupation above. This marks the final bit of research for the book on which he has worked for the past ten years and is now ready for the publishers.**

## *Dr. Mercier, Dr. Reinhardt Write in Moraga Quarterly*

Featured by articles from the pen of Dr. Louis J. A. Mercier and Dr. Kurt Reinhardt, the Moraga Quarterly made its regular summer appearance, shortly before school opened. The co-editors, Brother Leo and Dr. Hagerty, have also contributed articles to the learned journal. Brother Leo writes on Paul Bourget and Dr. Hagerty on The Foundation of the Pope's Program for Social Reconstruction.

Dr. Mercier's article on Charlemagne, Defender of Christianity, will be remembered by those who heard his brililant talk on the occasion of the Charlemegne Day here last semester. The Harvard savant has shown the four great tasks which confronted the great emperor: "The independence of the Papacy was to be made secure, the Mahomedan world was to be held at bay, the message of Christianity was to be pushed far into the German lands and the organization of Christian culture was to be established on a solid foundation."

He has further indicated how successful Charlemagne was in solving each of these four great problems and how as a result of his labors, "Europe was at last born, Christian Europe."

Dr. Reinhardt's article entitled, 'The Departure of Man," was first heard as the baccalaureate address at the Commencement exercises here on May 10. Dr. Reinhardt points out: "The man who has found his one and only purpose in life, the man who is henceforth concerned only with the one thing that really matters, this man is still the wanderer between the two worlds, he still finds himself in typically human state of uncertainty, in doubt and questioning and lingering, in fear and trembling, on his pilgrimage from itme to eternity. He is ready for the great departure, but he is willing to let himself be guided into the dazzling light of the unknown." The author of the article insists that "anything and everything that happens in time acquires meaning and significance only as we relate it to man's destiny and end which is above and beyond time. The ups and downs, the ebb and flow of civilization; inventions, discoveries, biological, technical, social evolution; they are less than a ripple on the sea of Eternity. They will all disappear, save the one thing that is necessary and without which everything else must fall asunder, even our very eyes and hands."

Other articles by Professor Silva on 'The Elements of Brazilian Nationalism," Gilbert Cosulich on "Square Pegs in Round Holes," and by Brother Bernard on "Puritanism in Milton's Major Poetry" and poems by Eustace J. Maguire and Brother V. Leo are also to be found in the Quarterly.

## 5 Student Brothers Leave As Six Arrive

Five members of the Scholasticate left this week for teaching posts in the Brothers' high school in the state, and six student brothtrs entered the scholasticate from Mont La Salle Novitiate at Napa.

The five are Brother Francis, who will teach at Saint Peter's school in San Francisco, Brother Ralph and Brother Cyril, both going to Sacred Heart College in San Francisco, while Brother Clement will teach at Cathedral High in Los Angeles.

Those entering are: Brother William, Brother Leonard, Brother Matthias, Brother Stephen, Brother Raymond and Brother Gerard.

## Monday Marks City Debut Of 'Parnell'

A play of historical importance opens for a limited engagement at the Alcazar Theatre in San Francisco on Monday evening. It is Elsie Schauffler's stirring play, "Parnell," built around the tragic career of Ireland's great statesman.

It was Charles Stuart Parnell who took the futile Irish parliamentary representation of the 80s and forged it into the most effective weapon of protest the British House of Commons had ever known.

Otto Kruger, the distinguished star of stage and screen, plays the title role of Parnell, the man whose incorruptible courage proved his worst asset in a fight against forces which were neither incorruptible nor courageous.

Montague Love, a veteran for many years of stage and screen, is seen as Gladstone, the famed English prime minister whom Parnell all but vanquished.

The tragic role of Kitty O'Shea, the woman whose path crossed Parnell's to the ruination of both, is ably interpreted by Edith Barrett of the original New York cast.

The remaining roles to the number of twenty are all characters from real life, including Captain O'Shea, Tim Healy and Michael Davitt.

Despite the costliness of this production, the usual scale of popular prices will prevail from 50 cents to $1.50 in the evening and from 50 cents to $1.00 at matinees.

## Local Zoology Professor's Book Ready For Press

**Thousand Page Treatise Is Completed After Decade Of Work**

After over ten years of work by Dr. A. S. Campbell, professor of Zoology, and Dr. C. A. Kofoid, a 1000 page book, "Report of Tintinnoinea of the Eastern Tropical Pacific," is ready for printing.

At the present time, the manuscript is at Harvard University, where it will be printed. It is not known when the actual printing will begin.

The book was sponsored by the department of Comparative Zoology of Harvard. It contains a complete correlation of data gathered by the U. S. S. Albatross during the years 1901 to 1903.

The book, 1000 pages in length, contains over a thousand cuts and 35 plates.

In the collection of the data, 130 stations were established, and species were taken from the surface to a depth of 2000 fathoms.

Three hundred new species are described in the book, as well as a virtual complete revision of the group.

As well as heading the Zoology and Geology departments at Saint Mary's, Dr. Campbell is also on the University of California Extension faculty.

## Brothers Move Base To New Rome Site

Conforming to the request of the Holy Father, Pope Pius, the Christian Brothers have announced that in October, their Mother House will be moved from Belgium to Rome, where new headquarters have been constructed.

The present Mother House in Belgium, has been established there since 1904, when it was moved there from Paris. For many years, the Brothers looked toward the French city for their orders from their superiors, but in 1904, the French government took over the property occupied by the House and it became necessary for the Brothers to seek a new location. After looking about the continent they finally chose the little city of Lembecq, near Hal in Belgium, for their home.

Last year, however, Pope Pius issued an order that he wished to have all of the central units of the church near him in Rome, and the Christian Brothers were requested to begin construction of headquarters in that city. The new House, overlooking Vatican City, will be, as has been the custom, the home of Brother Junien-Victor, Superior General of the Brothers, and his twelve assistants. Included in the list of Assistant Superior Generals is Brother Phillip, head of the English speaking Brothers, who is now in the United States. Brother Philip addressed the student body of the College during his last visit in California a year ago.

## Alumnus Ordained In City During Summer

At a ceremony held in San Francisco June 14, Father Leo Fox, C. M., was ordained and celebrated his first Mass in Old Saint Mary's Church in that city.

Father Fox, who attended the college when it was established in Oakland, California, will leave in October for China, where he will join a group of missionaries in the northern part of that country.

While in China, Father Fox will visit for a time with Father Wilfred Le Sage, S. J., a former student of Saint Mary's, and now located in Shanghai.

After his ordination, Father Fox was feted at a dinner given in his honor at which many former students of the college were present, among them many of his classmates. The college was represented by Brother Bede Edward.

His first official act as a priest after his first Mass, was the marrying of Earl Dobbins and his wife. Dobbins was a classmate of Father Fox while at college.

**FORMER STUDENT IN EUROPE**

Edmund Brollo, former student, is now touring Europe. Brollo, class of '37, left last fall for an extended journey on the continent. His father, Central American importer, accompanied him. Plans call for a return later this year.

# Student Body Cards To Be Issued All Next Week

Every student of Saint Mary's is expected to purchase his student body card as soon as possible.

The usual fee of $1.00 for the card will be charged.

**WHY YOU SHOULD GET YOUR CARD SOON**

1—It makes you a bona fide member of the student body.

2—It entitles you to exercise your preferred seat option.

3—It entitles you to participate in intra-mural athletics.

4—It entitles you to your book of free tickets for the Saint Mary's games.

5—It entitles you to the student body newspaper.

6—It enables the student body to carry on a program of cultural, social, and athletic activities for YOU.

You can show your enthusiasm for Saint Mary's College by your response to the appeal to purchase your Student Body Card AS SOON AS POSSIBLE.

# Saint Mary's Club

After several months of silence, we once more burst forth in print, and in the first issue of the COLLEGIAN, too! That, men, is a record, but your Club is gunning for a bigger record. More about that later.

First we will endeavor to relate a little of what is happening in the Saint Mary's Club, and to afford you the privilege of placing your finger on the pulse of your organization, to see whether or not the old pep is still in evidence. During the summer months most of the boys hie themselves to the country to recuperate, and to restore their power for another long seige of the daily stint. Most of them return rather long of face and short of purse, having spent their all, and facing the necessity of plugging away so that they may take another vacation next year.

It is our opinion that a two weeks' vacation means practically a four weeks' rest, for it seems to take a couple of weeks to once more get back into harness. Personally, after having wandered through the Redwood Highway country, we thought we would be all pepped up and ready to go, but we are still mooning back to the days of our brief respite and we haven't accomplished enough to fill an eye since.

But while we have been loafing in the sun our membership committee has been right on the job. Quietly and effectively, Dr. Dan Murphy and his committee have been laying the groundwork for a real drive that is set to smash all previous records. Each Saint Mary's Clubman has application forms; more than 1500 have been placed in your hands. September is to be the month, so let's go! September: call it New Member Month, Get a Man Month — call it anything — BUT GET A NEW MEMBER!

The early response to the committee for President Charles Barry was swell, 65 new applications in 9 days, but, those 65 were the work of about 30 Clubmen.

Now it may be that ye reporter is a little goofy from all those knock-knocks being bruited about, but it seems to him that if all 500 odd of young men who read this column would lend a hand and get that ONE new member, there will be no question of record breaking; the membership meter will be shattered.

During the next three months you are going to hear a lot about the old P. M. A. and its relation to the battling teams down there on the gridiron. You know what we mean, the old Proper Mental Attitude. It wins football games and makes good organizations better and bigger too. With the right P. M. A. Saint Mary's Clubmen, you can help us step out and do BIG things for our beloved Saint Mary's. Are you with us?

And finally, if you know a sympathetic heart that beats for the Gaels, and for one reason or another you can't personally approach him, send in his name to the membership committee at P. O. Box 327, San Francisco. They will contact your prospect and you will receive credit for the application, making you eligible for the ticket pool that might mean a pair of seats to Gael contests played in the bay region.

So then — REMEMBER SEPTEMBER!

## Eucharistic Congress

(Continued from Page 1)

As is the usual custom on the campus, a Mass will be held for the student body next Friday morning at 8 o'clock.

Confessions in preparation for Holy Communion will be heard Thursday afternoon and evening, in the chapel. Day students may also go to Confession in their parish churches.

All students are requested to be present at the Mass, and all Catholic students are asked to receive Holy Communion as the Day is also the celebration of the Diocesan Eucharistic Congress.

All students, both boarders, and day scholars, are invited to breakfast in the college dining hall after Mass.

## Honor Roll

(Continued from Page 1)

Brother Daniel, Joseph Donnelly, Herschel Smith.

**Second Honor Roll**

Students making an average of between 2.0 and 2.5 earned a position on the second honor roll. They are:

**Seniors: Maurice Vieira, Arthur Mott, Joel Brown, John Green, William Lindsay, Noel Lynch and John Rossi.**

Juniors: Lester Groux, William Rockwell, Elias Welch, Raphael Desimone, George Murphy, Cornelio Baca, Thomas McIntosh, Francis Boyce, Albert Shine and Richard Vail.

Sophomore: Earl Fleming, James Walsh, Victor Wilkiemeyer, Paul Alston, Jack Madden, Wyman Riley, William Bourne, James Rarig, Jerry Seale, Brother Virgil, Brother Charles, Brother Francis, Gerald Heegler, Julian Lyons, John McIntyre, John Saunders, Lawrence Webber, Lew Baysinger, James Clay, John Mylott, James Shea and John Tillotson.

Freshmen: Charles Carroll, Brother Edmund, Brother Matthew, John Sullivan, Charles Weiler, William Dooms, Robert Fleitz, Harry Hooper, Brother Martin, Edward Murphy, Louis Curran, Albert Monge, John Finn, Valentine Senavsky, James Dowd and Glenn Todd.

## Alumni Secretary Drowns in Ocean

John R. Friedman, graduate of thec lass of '32 and recently elected secretary of the Alumni Association, drowned in the breakers off Stinson Beach, Marin County, last May 31.

F. R. Friedman

Having majored in Economics at the college, Friedman was graduated with honors and was last March elected to office in the alumni.

With a party of ten Friedman was spending the Memorial Day week - end in Marin, and on Saturday afternoon, went swimming. He decided to stay in the water longer than the others. A few minutes later, members of the party reported, he could not be seen.

An immediate search was begun, and authorities were notified. The search, however, proved fruitless. Coast Guard officials sent cutters and planes in search of the body.

While in college, Friedman was a member of the tennis team. He was employed as sales manager of the California Cotton Mills at the time of his death.

Surviving him are his father and mother, Mr. and Mrs. F. P. Friedman, and four brothers and sisters, Clement, Vincent, Gladys and Mrs. Charles Doran.

## ASSMC Plans

this year be asked to present a program justifying their existence or else to disband.

Presidents of the various clubs will meet with the student body president to determine what plan of action will be carried on by each club.

**Cal Rally Dance**

The first big social event to be sponsored by the student body, will be the California pre-game rally dance. A letter has already been forwarded to the social committee seeking sanction for the affair.

Present plans call for several departures from last year's California rally dance, which will heighten the enjoyment. This will be the first major business to be tackled by the executive council in its first weekly meeting next Wednesday.

Special attention of the student body was asked by Alioto in the matter of student body cards. Pointing out that the sole student body revenue comes from the sale of cards, he hoped that a 100 percent response would be given.

## Work On Campus Roads Nears End

### Drainage System For Grounds Is Installed

Extensive work is now being done on the roads on the campus by Reinhold Von Wetter, local landscape architect. The two roads leading down from both sides of the quadrangle are being extended and will join the road to the station, forming a semi-circle in the middle of which a lawn will be planted this fall.

At the same time, the road in front of the buildings will be widened and resurfaced where necessary. It is hoped to have this project finished within three or four weeks.

A more adequate drainage system for the grounds is being installed. Work on this is virtually complete. As well as protecting the roads, it will assist in the landscaping of the campus.

A hedge has been planted along the service entrance at the rear of the Senior hall. When possible, this area will be terraced, and gardens planted.

Ornamental shrubs and perennial flowers are being raised in the nursery. They will be planted about the buildings as soon as the weather permits. Several varities of trees are also being raised in the nursery.

A heating unit for the green house has been ordered, and will be installed shortly.

In the fall, grass will be planted in the area adjacent to Galileo Hall, and later around Dante Hall.

While preparing for the roads, earth will be taken from the hill overlooking Lake La Salle.

The brick gutter lining is being extended around the quadrangle and in front of the freshman hall.

Von Wetter, in making the announcement of his plans, asked that students cooperate in not throwing papers about the grounds.

## Chaplain Tells of Religious Services

For the information of the new students in the college and to serve as a reminder to all other students, Father Bowling, Student Chaplain, wishes to call attention to the campus spiritual exercises held during the week.

A regular student body Mass is celebrated each Wednesday morning at 7 o'clock and all students are expected to be present. Also Benediction of the Blessed Sacrament is held every Tuesday night after dinner. Confessions are heard after Benediction in preparation for the Mass the following morning.

Besides these services, at which all members of the student body are to be in attendance, there is also a Mass each morning of the week at 6:30 and on Sundays at 7 and 9 o'clock. Confessions are heard during the morning Mass and each evening in Father Bowling's office, where there is a Confessional.

Father Bowling stated that he would be glad to meet any student in his office in 226 Center Hall at any time.

## Columbian Squires Win National Note

Under the direction of J. Leslie Darnell, a former student of the college, the Vallejo unit of the Columbian Squires have won the national competition held among the 170 groups in the United States.

Darnell, a graduate of the Boy's Work course given by Saint Mary's in 1931, and his circle will be feted for their work Monday night, August 31, at a big dinner and entertainment at the Casa Del Vallejo Hotel in Vallejo.

The college will be represented at the dinner by Brother Bede Edward, Moderator of the local unit of the Knights of Columbus, and Joseph Alioto, Student Body President, and Deputy Grand Knight of the campus group.

## Knights Hold First Meeting of Semester

Out to retain the title of being the most active organization on the campus, the local chapter of the Knights of Columbus will hold their first meeting of the fall semester on Wednesday, September 2nd, with Grand Knight Jack Fissori, presiding.

Brother Bede Edward, moderator, will be present and will aid in the formulation of plans for an interesting and entertaining term of activity for the chapter.

## FRIENDS OF YOUTH

**Brother Patrick and Father Michael Fleming, shown at the Catholic Youth Organization convention held in July.**

SAN FRANCISCO CHRONICLE

## *Catholic Youth Workers Gather for CYO Meeting*

After three years of work in organizing the Catholic youth of the Pacific Coast into the C. Y. O., leaders of the movement assembled in the Y. M. I. building for a three day convention to review the work of the past and to consolidate the work of the future, in the latter part of the month of July.

**Opening the convention, Monsignor McElroy welcomed all the delegates from the various Pacific Coast districts and outlined the purpose of the C. Y. O. Father Leo Powelson, director of San Francisco C. Y. O. activities, acted as chairman for the three-day conference.**

Among the speakers at the convention were Brother Patrick, of Saint Mary's College, who outlined the part to be played by Catholic college graduates in the future development of the C. Y. O. "Leaders of the future must come from our Catholic Colleges," stated Brother Patrick, whose program was received enthusiastically by all the delegates present.

**Oregon Judge Speaks**

Judge Hall S. Lusk, of the Circuit-Court of Oregon, speaking at an evening banquet for visiting delegates, stated the Catholic church placed its hope for preservation of youths morals in its priests.

**"The real reason, said Judge Lusk, "is that profound knowledge of human nature is found in the Catholic Church and her ministers. There is no group to whom we can look to do a better job of the kind the Catholic Youth Organization is undertaking than the Catholic clergy.**

"The church looks on a world filled with young men and boys, most of them filled with decent instincts and aspirations, ready to go the right way, in danger of being led the wrong way."

**Moraga Camp Lauded**

The first C. Y. O. camp held on the Saint Mary's College campus for an eight week period under the direction of Father Eugene Shea, was highly lauded by C. Y. O. officials who stated it completed the C. Y. O. program by offering to our youth under Catholic direction, a vacation under the proper physical and spiritual guidance.

Over 500 boys at different intervals, were encamped in the Moraga Valley under C. Y. O. direction. With facilities unequalled by any other camp, the success of the camp was assured, but the vast number of campers from all parts of the state was larger than expected.

Other speakers at the C. Y. O. convention were Father McCarthy of Marin county, Father Fleming of Portland, and delegates from Los Angeles, Hollister, Oakland, San Francisco, and other Pacific Coast districts.

## Alumnus Appointed S. F. Library Trustee

Sylvester Andriano, graduate of the college and prominent San Francisco attorney, was last week sworn in as a trustee of the San Francisco Library by Mayor Angelo Rossi.

A member of the board of trustees of the college, and active in alumni affairs, Andriano has been associated with college affairs for a period of years.

He was a supervisor for the city and county of San Francisco from 1928 until 1932. A large group of friends were present in the mayor's office when Andriano took the oath of office.

## Interview

(Continued from Page 1)

life counterpart of the "obscure destiny" Miss Cather has made famous, according to Brother Claudius. He said Jacinto told him that the story was very accurate; that the Archbishop had found him seriously wounded after a battle between Pueblo and Navajo Indians and had nursed him back to health.

**After he recovered, Jacinto remained with Archbishop Lamy, who baptised and christened him "Miguel Jacinto Lamy," according to Brother Claudius.**

The surprising veracity of Miss Cather's novel, as authenticated by Jacinto, the local research worker attributed to her accuracy in interpreting her primary original source, the Archbishop's lengthy reports and leters to his superiors and government officials, and Howlett's 'Life of Bishop Macheboeuf," first Bishop of Colorado.

## Ex-Council Holds Initial Meetings

Setting of next Thursday as the date for the annual Sophomore-Freshman brawl, was the main article of business transacted at the opening meeting of the Ex-council last Wednesday noon.

Since the first regular meeting will not be held until next Wednesday, no financial matters were brought up.

Sophomore representatives to the council were appointed as a committee to oversee the hazing of the freshman class.

Student body vice-president, Al Shine, presided.

The next meeting will be held Wednesday noon.

## Ex-Econ. Prof. Works For FDR

A former Saint Mary's Economics instructor who became personal statician for President Roosevelt, is back in the bay region for a visit this week.

**N. G. Silvermaster, professor of Economics at the college, both at the Old Brickpile and here at Moraga for years, from 1924 until 1931, returned this week, prematurely grey, a condition for which he held Washington and F. D. R. responsible.**

After leaving the college, he went to the University of California, where he taught for a year. Before going to Washington in August, 1935, Silvermaster was director of research and surveys for the California SERA.

**Is Loaned**

His original appointment to Washington was as labor relations counselor. The SERA then loaned him to the Resettlement Administration, the Resettlement to WPA, and last the WPA to the President.

**"Half a dozen lawyers are having a helluva time figuring out on what payroll I really belong," he told newspapermen in San Francisco.**

It seems that when members of the "brain trust" ask for more money, Silvermaster is called in, and in he marches with charts, diagrams, pictographs, and all the other devices used by statisticians.

The toughest assignment this year was over the request for relief funds. Hopkins wanted a minimum of $1,500,000,000, while the President felt that $500,000,000 was enough.

"It was as bad as trying to sell a man three suits when he only wants one," he said.

He works ten hours a day.

While teaching at the college, he was extremely popular with both the students and the faculty.

# Senior Sketches

By LAURENCE MANA

As the first sketch of the year, we introduce the outstanding personality who, through no fault of his own, has become known as "Sad" Sam Miller. In reality, Sam is far from Sad; his amiable and pleasing personality soon dispels the thought from anyone's mind. Rather characteristic of him, however, is his cute dimple when he smiles and his very quiet nature.

Sam Miller

Sam hails from the rising town of Alturas, in Modoc county, situated in Northern California, where he graduated from Modoc Union High with honors, scholastic and athletic, having been the backfield ace on the football squad for three years.

**Freshman Star**

Three years ago he entered Saint Mary's and soon swung into freshman activities by starring on the frosh football team and maintaining a very high scholastic record.

**During his sophomore year Sam was a member of Slip's squad ending the season with three of his front teeth missing. From then on, for no particular reason, Sam, who always smiles, became known as "Sad Sam."**

Complications and more injuries at last made Sam write "finis" to his football activities so as to concentrate solely upon his academic record. With three quarters of college already completed, he is now in a position to brilliantly climax his college career by graduating with a Cum Laude degree.

**Split Major**

As his major he has chosen to split between History and English, with the greater number of units in History.

**At present, Sam is a member of the Los Hidalgos Spanish Club and vice-president of the Alpha Rho Omega. As assistant headwaiter, Sam steps out of his characteristic kind role to crack the whip on the poor unfortunates who have accidently fallen under his power.**

Sam has just returned to school after a most eventful and interesting vacation. All of his time was spent working in a northwestern lumber camp where he became quite an authority on the lumber industry and its complicated economic problems.

**No Swivel Chair For Sam**

Sam's job wasn't one of the swivel-chair affairs either; his work carried him right out into the virgin forest, where he gave vent to his pioneer spirit.

In closing, we bid adieu to Sam, who although he still has a year of scholastic work ahead of him, will soon be in the world helping to maintain the already high standand of the "Saint Mary's Man."

## Bids Called For Completion Of Broadway Tunnel

### Work To Be Resumed Next Month On Project, Bore Ready By March

Bids were called last Friday by Joint Highway District No. 13, for completion of the $3,750,000 Broadway low level tunnel on which no work has been done since last June 13, when Six Companies withdrew from the contract.

On September 11, the bids will be opened, Alameda County Supervisor Thomas E. Caldecott, announced. Work will be started shortly thereafter.

Most of the work should be finished by February or March of next year, he stated. If the bids are not satisfactory, the highway district will continue the work, he indicated.

It was pointed out that, working under favorable conditions, the south bore should be completely holed through within about forty days, and within approximately 90 days on the north bore.

At the present time, work is rapidly progressing on the new highway between the mouth of the tunnel and Walnut Creek. Many of the curves are being eliminated, and the road is being widened.

## APGU Subscription For Library Starts

Many new books and periodicals have been added to the library during the summer, according to librarian Brother Clement. Leading the parade in the periodicals was a subscription to the Readers' Digest, given by the A. P. G. U., which was due largely to the efforts of former president, Arthur Mott. Two issues of the magizine have already been received.

Among the new books added, the more outstanding were: "Church of Christ," by Rousseau; "Ordeal by Hunger," a story of the Donner Party, by Stewart, G. R.; "Science of Current Thinking,"," by Bittle, C. N.; "Industrial America," by Pound, A.; "The Battle Ground: Syria and Palestine," by Belloc, H.; "Arthur Lee," by Phelan, T. P.; "Mexican Martydom," by Parsons, W.; "English Catholic Poets," by Culby, E.; "Catholic Philosophy of History," Guilday, P., editor; "Give Me Liberty," by Lane, R. W.

## Local KC Council Wins High Honors

Deeply impressed by the success of the local KC's in coming through the depression with a substantial bank account, while they at the same time increased their membership and engaged in numerous activities, the California jurisdiction of the order at its annual convention at San Diego decided to expand the work of the Knights of Columbus in California colleges, using the local council as a model.

Phil Quittman, former grand knight, represented the campus knights at the San Diego gathering and was the youngest of the two hundred delegates present.

## Convention

Archbishop, "they should assist at Mass nad receive Holy Communion in a body, and then attend the various devotions arranged for them in the afternoon."

**Acting under the suggestion that special ceremonies be held, Saint Mary's will combine the regular first Friday Mass with a Mass in celebration of the Congress at 8 o'clock. At this Mass, all Catholic students are requested to receive Holy Communion in a group.**

The reason for the Congress, as pointed out by the members of the Eucharistic League, is to intensify devotion to our Lord in the Blessed Sacramento and to express to God our thanks for the many favors and blessings He has showered upon us and our fellow men during the past many years.

"It is through the Blessed Sacrament," said the Archbishop, "that all of us are brought close to God and this Congress will give each one of us a fine opportunity to enjoy His Presence amongst us, and to express our deep gratitude for all that He has done through His intimate association with us."

# Saint Mary's Collegian

Published weekly during the regular college year by the Associated Students of Saint Mary's College, California. Entered as second-class mailing matter, September 28, 1928, at the post-office at Saint Mary's College, California, under the Act of March 3, 1879. Courier-Journal Press, printer, 1361 Main Street, Walnut Creek, Calif. Subscription rate, $3.00 per year.

# Editorial

FOLLOWING the tradition of opening editions, The Collegian here prints "The Saint Mary's Man's Credo."

Since it contains the fundamental beliefs of the Saint Mary's man, and embraces the principles upon which the college exists, it should serve a dual purpose: to the freshman, a source of information; to the returning student, a reminder:

**"I believe that the world has an Idea behind it and that my life is more than a merely animal life.**

**I believe that my biggest and unending business is, according to my ability and my opportunity, to champion the cause of Goodness, Beauty and Truth.**

**I believe that the things of the spirit are more important than material things and that the man who ignores spiritual values ignores the deepest and truest things in life.**

**I believe in honesty, not because it is the best policy, but because it is the will of God which ordains that I shall be fair and square with all my fellow creatures.**

**I believe in art, literature, music, science, philosophy, and all the other forms wherein the human mind expressed its aspirations and recorded its achievements.**

**I believe in the European tradition of culture whereof I am the heir, and I pledge myself to live as best I may in harmony with its spirit and its aims.**

**I believe in the sacredness of my duties as an American citizen and honor the flag of my country as the symbol of political liberty.**

**I believe in whatsoever things are good, whatsoever things are true, whatsoever things are honest.**

**I believe in Saint Mary's College, Mother of Men, and cherish the years I have been privileged to spend in her fostering care."**

—By Brother Leo.

## Greetings, Frosh!

A LARGE CLASS is this freshman group, which has entered Saint Mary's College this semester—large in size and large in spirit. On the few occasions in which they have already been called upon to act as a unit, they have manifested a willingness to fall into line with the traditions of previous freshman classes, and a desire to knit themselves firmly into the pattern of Saint Mary's life.

They have suffered the usual hazing in the spirit in which it is primarily intended—sturdy good-fellowship. They have been bullied to a certain extent, as freshmen always are, by the sophomores, but so far, they have taken it all good-naturedly, and have shown in return a fine cooperative sense that bodes well for the future of this class. Keep up the good work, frosh—maintain that proper mental attitude towards the disciplinary measures now being exercised upon you—and Saint Mary's College will rightly be proud of you!

## Journalists Wanted

IN opening its thirty-fourth year, The Collegian sends out its annual call for new men, to fill vacancies caused by graduation. The paper is starting off with the smallest number of men in several years, making the need for new blood more urgent than is generally the case.

Work on The Collegian provides opportunities which few other extra-curricular activities afford. It keeps the individual in full acquaintance with the manifold activities connected with the college. It develops on the part of the student, alertness, tact, self-reliance and cooperation, all of which are outstanding assets both in and out of college.

Over a period of years, local journalists have maintained a high degree of scholastic proficiency. Approximately two-thirds of the APGU campus honor society are members or have been members of the staff.

Also in the field of student leadership, Collegian writers have been outstanding. The past four ASSMC presidents, as well as the present head of the student association, all received experience on the paper.

The work is not without reward. To the writer who has completed the required amount of writing, the ASSMC gives a gold pin. Each year at graduation, a gold medal is presented to a senior who is regarded as outstanding in this work.

To the freshmen, especially, is this appeal directed. The Collegian provides an excellent means whereby the new student may become acquainted with campus affairs.

However, all students are eligible and will be welcomed. It is not necessary that experience be had, as sufficient instruction will be given by older members of the staff.

## Support Card Sales

Having planned an extensive program, the student body needs funds to carry those plans through. Such financial aid is obtained yearly through the sale of AASMC cards.

This year, especially, it is necessary that there be 100 percent support of these sales. Considering the low cost and the real value, there should be no hesitation in buying them.

The proceeds of this sale go to the ASSMC for their own use. It is a necessary thing, one which should receive the support of the entire college. The fee for these cards is the lowest paid by any student body on the coast, and the value received is obviously just as high as the cost is low.

Since this sale is of such benefit to the student body, whole-hearted support should be given it. It is essential that the sale be a success, for the sake of the coming social season alone, and undoubtedly, the support of the students will be given.

Buy them now—don't wait until it's too late.

## "Break the Monopoly"

In the past few years, interest in extra-curricular activities has been notably lax here on the campus. Excepted, of course, are sports.

This year, with a large class of yearlings, a lot of new enrollees, and a general change among the students, interest should revive.

Modesty is an admirable quality, but too much of it can be decidedly detrimental.

New blood is needed in all activities; new men are wanted in all campus organizations. It is an invitation and a plea for this campus to get next to itself and become active.

The student, the campus, and the college benefit by such interest. Not only does it enliven campus life, but it also benefits the various organizations here at the college.

"Break the monopoly" and get in it yourself!

# Moraga Musings

A day on the campus: Alarms at 6:20 and 6:50 for Mass or breakfast . . . . the abundance of chatter these morns at the tables . . . . bells for eight o'clock classes . . . . late risers trudging sleepy-eyed down the hall . . . . everybody and his brother trying to get still later risers up for class . . . . and so through the morning . . . .

Then lunch time and the lazy half-hour after lunch . . . . one o'clock classes . . . . why do we all get so sleepy . . . . back to the dorms or down to the trains . . . . the quiet afternoons . . . . guys in the gym, on the fields, around the lake . . . . time for dinner . . . . the noise in all the dorms from 6:30 to 7:00 . . . . the quiet until nine o'clock, when it's down to the co-op or up to the Center Hall chapel . . . . peace again about 9:30 and off to bed from then until all hours . . . . bull sessions here and there . . . . soft radios, organ music and sweet dance melodies lulling the boys to sleep . . . . the end of another day . . . . and so it goes . . . . ad infinitum . . .

* * * * *

WHAT THE MUSER WANTS to know, is what used car lot dumped all the cars on Saint Mary's this year, and when the Student Body is going to build a double deck driveway in front of senior hall, so that a guy can find a place to stick his car occasionally. And, in like spirit, the Muser suggests turning the roadway around the campus into a race track and having road races on odd days to keep students' minds off studies a bit. Just a suggestion.

* * * * *

When Southern California concocted the "Knock, knock" game, it did not know that at Saint Mary's we had the ace punster of the west in the personage of suave senior Dan Leary who, incidentally, claims to have at least five more hairs on his billowy chest. Now, to the dismay of students young and old, Leary bubbles forth with "Knock, knocks" so profusely that it is rumored the Ex-Council will do something about it, or else. Requested by a potentate:

# A Sincere . . .

# OUTLOOKS & INSIGHTS

By BROTHER LEO

### FAILURES

The word has an uncomfortable sound, but it stands for a reality. There are failures, in college and in life, and wise young men can learn from analyzing the causes that result in disaster.

Brother Leo

Also, there are failures in literature. I mean that great writers, from Homer to Galsworthy, depict men who tried to do something and didn't do it. Shakespeare, for instance, is full of failures; Ruskin was not far astray when he remarked that in Shakespeare's dramas there are really no heroes at all.

To re-read some of the plays with the specific purpose of studying the failures is a profitable occupation. In "Richard II" and the two parts of "Henry IV" we find material for a study of Bolingbroke, the man who failed because he was too intent upon worldly power and prestige. In "Henry IV" and "The Merry Wives of Windsor" we meet another failure in the person of Falstaff. Shakespeare was fond of the fat old rascal, and so are we; but Shakespeare none the less told the essential truth about the man who seeks happiness along the sensualist's way. It is a sad and disillusioned Falstaff we encounter at the end.

Marc Antony in "Julius Caesar" and "Antony and Cleopatra" is a failure too, a failure because his theory of life was the dabbler's theory. He never finished anything he started. In politics as in love he was always a taster, never a thirster. He lacked the discipline of hard work, of intensive thought. He was a good man in the sprints, an ignominious loser in the eight-eighty. And life is not mainly a hundred-yard dash.

Another modern instance from Shakespeare is Angelo in "Measure for Measure." He was a fanatical reformer. Reformers are well enough—especially if they remember that charity begins at home—but fanatics are calamities. A fanatic, for reform or for anything else, is the man with no sense of proportion, the man who confuses means and ends, the man who, as Santayana has said, redoubles his efforts as he loses sight of his aims.

Perhaps the most pathetic of all Shakespeare's failures is Brutus, the noble Brutus of "Julius Caesar." Study him, and you will see a man who expected perfect character and perfect conditions in this patently imperfect world. An ideal-is, however noble, is predestined for failure.

### OF LEARNING AN ART

Pessimists assure us that conversation is one of the lost arts, but some of us are sufficiently eupeptic to doubt that. There are still sessions of golden talk in the world, if only we have the ingenuity to locate them and the wit to share in such intellectual feasts.

Conversation is one of the richest of human joys, and skill in conversation is among the highest and most practical of human accomplishments. The educated man who cannot converse well is so limited that one might almost say he isn't educated at all. Not to understand the art of conversation is to cut in half our possibilities of earthly happiness.

College men who do not learn how to converse well have nobody to blame but themselves. Ability to converse with interest, with charm, with variety, any intelligent young man may make his own, provided only that with resolution and discernment he take the means. The means, briefly are: Good reading, to supply the material for thought; periods of reflection, to digest what has been read and observed; association with persons who do not converse well; self-criticism to detect faults and to stimulate conversational merits; and, negatively, the avoidance of mere chit-chat on trivial, vulgar, egotistic and non-intellectual subjects.

# The Bystander

By FRANK MARTIN

It seems strange to come back to the old familiar surroundings only to find so many new faces and to miss so many old ones. Everything externally connected with the College—buildings, shrubbery, trees, walks—seem essentially the same. It is within the ranks of the student body, the component organization, that is responsible for the character of a college, that you notice the first changes.

Wherever you happen to go, no matter what part of the campus, you see red-and-blue-capped freshmen, strangers at first sight, walking about within the boundaries of their new abode. You speak to them, of course, and receive a courteous reply in return, as a rule, but still, in spite of their obvious desire to be friendly, it is hard to greet them other than with the unintentional lack of warmth of a man meeting his wife's relations for the first time.

Inevitably, you seem to miss someone and look among them and through them, searching for a familiar face or figure—one of the class that has just graduated and yet remains so closely connected, in your mind, with the affairs of the college.

Not finding those whom you seek, and chagrined with your own sense of personal loss, you look with critical eyes upon the benighted freshman, both as an individual and as a member of a society, the freshman class. Whatever his virtues, you see him only as a poor substitute for some hero of your own lower division days.

Days pass and with them passes a good portion of your indifference and lack of warmth. You begin to look with a more charitable and understanding eye upon these new men—these freshmen. At the end of the first or second week, you come to a realization of the colossal truth that freshmen are human beings, too! From then on, the barriers to friendship and mutual good will are down!

So don't despair, freshies, if at first the high and mighty juniors and seniors seem somewhat aloof and untouchable. In all probability, it is only because they are still somewhat dazed by their own rapid transition from freshies to upper classmen and their acute nearness to graduation.

Just bear with them, please, until they recover from the shock and become themselves again!

By CORNELIO BACA

### HERE GOES!!!

Long-winded Prof: "If I have talked too long, it's because I haven't my watch with me and there isn't a clock in the hall."

Bored senior: "Yes, but there's a calendar behind you."

### QUOTABLE NOTES

Success in life depends on two things—luck and pluck—luck in finding someone to pluck—Marriage is a mutual partnership with the husband as the mute—Relatives are people who wonder how you manage to keep on fooling the world—The average man is like a match, if he gets lit up, he loses his head—You can lead an ass to college but you cannot make him stay away from drink—The professor who comes in ten minutes late is very rare, in fact he is in a class by himself.

### INTIMATE

Sophomore: "I hear the church you go to is very small."

Coed: "Yes, every time the preacher says, 'Dearly beloved,' I feel like it's a proposal."

### SISSIES

What is a sissy? The answer to this pulsating problem is given us in sundry opinions of Boston U. coeds. Here are a few: "A man is a sissy if he uses any perfume." "Anything a man uses to slick down his hair makes him look like a sissy." If the hat is worn on the center of the head, then this individual is a sissy of the old school." "Any man who does not suggest a Dutch Date is automatically a sissy."—Now you know, go and guide yourself accordingly.

### PSYCHOLOGICAL BEARD

Losing an inferiority complex, finding a broadminded, intelligent girl or impersonating a faculty member are all as easy as growing whiskers, in the opinion of Herbert Jenson, (no relation to our boy Jensen), U. of Minnesota senior, who is the owner of the school's only undergraduate beard.

"Everyone I meet suggests a reason for my beard," he says. "Just to clarify the situation, let me say that I have not been disappointed in love, I am not trying to establish myself as a campus personality, and I am not mentally deficient. To me, my beard has been more than just whiskers. Psychologically speaking, it has been a boon to me in getting rid of an inferiority complex.

"I'll admit, though, that it doesn't exactly please most girls. But at least I have the assurance that any girl who goes out with me is broadminded and intelligent—My beard also gives me an advantage over the smooth-shaven students," Jenson argues. "Members of the faculty are extraordinarily cordial to me. They nod at me on the street and shake hands with me in the classroom. They treat me as a colleague. My beard gets the credit." And the tragedy of it all is that I can't even raise enough down to bed a flea! Tsk' Tsk!

### LECTURE DEFINED

For the benefit of our new Freshies, Professor Rathburn, law, Stanford University, defines something to which our collective flesh is all heir to: "A lecture is the process by which the notes of the professor becomes the notes of the student, without passing through the minds of either."

### BACK BONE

The pertinent problem, always paramount in the battle of the sexes, as to which has the most courage, is tartly answered by a college columnist from the University of Washington: "Man may be more courageous than woman, but he doesn't get half the chance to show his backbone, that she does."

### APRIL FOOL!

Yeh, I know it's only August, but the Fordham Ram printed it:

When you
started this
You thought it
Was a poem.
By this time,
You probably see
That you were mistaken.
Isn't it funny,
How people will continue
To read something,
Even when they know
They're being
Fooled?
